## Growing recommendations

DM6301 is well balanced plant with a big cob ( 16-18 rows). DM6301 can grow in warm condition thanks its good adaptation to the stress

	Optimal conditions	Limited conditions
<b>Adaptation</b>	3 on 4	4 on 4
<b>Density - silage use</b>	90000 Plants/ha	80000 Plants/ha
<b>Density - grain use</b>	85000 Plants/ha	75000 Plants/ha

The results and recommendations given in this document are the values based on MAS Seeds R&D network and are intended for general guidance. We cannot assume any liability for the future achievement of these values, as the individual results and the performance may vary in different local growing, soil and weather conditions.
