## Growing recommendations

Mas 78.T is the hybrid for high performances in both grain and silage. Genetically Fix it will value high sowing density. Flawless, Mas 78.T is an insurance to harvest securely.

	Optimal conditions	Limited conditions
<b>Adaptation</b>	4 on 4	4 on 4
<b>Density - silage use</b>	85000 Plants/ha	80000 Plants/ha
<b>Density - grain use</b>	85000 Plants/ha	75000 Plants/ha

The results and recommendations given in this document are the values based on MAS Seeds R&D network and are intended for general guidance. We cannot assume any liability for the future achievement of these values, as the individual results and the performance may vary in different local growing, soil and weather conditions.
